XI. Fair Housing (For Housing Related Projects Only)

As a recipient of federal funds being administered by Anne Arundel County, all subrecipients developing housing and/or sponsoring housing related projects are required to promote and affirmatively market housing to ensure fair housing choice for all persons, regardless of race, color, religion, sex, familial status, disability and notional origin. While exceptions may exist for housing projects or programs tailored to a specific special needs clientele, all programs and projects are required to comply with the federal Fair Housing Act.

Please describe how you will work to affirmatively further fair housing through your housing project and delivery of housing units.

We encourage applications for affordable rental housing in areas that have been traditionally less affordable and where strong opportunities for quality education, public transportation, employment and enjoying a safe community exist. ACTIVITY SELECTION GUIDELINES

- The recommended activity must be an eligible activity based on Federal Guidelines.
- Priority will be given to projects and programs which address the **County's vision statement**.

The main vision guiding the Consolidated Plan FY 2016- FY 2020 is to implement strategies that create a strong and vibrant community, both socially and economically, and create and maintain a diverse community of workers and a broad range of housing options for all income levels. Given the severe housing cost burden and risk of homelessness experienced by those at the lowest end of the economic spectrum, the County's limited federal resources should be prioritized for the stabilization and expansion of affordable housing. An expanded supply of work force housing will enable health aids, hospitality and retail workers, teacher aides, daycare workers, and other low income workers from the public, private and nonprofit sectors to live and be productive citizens of Anne Arundel County.

New affordable developments located in Opportunity Areas will be given priority, while efforts to stabilize and preserve affordable housing stock, and services to improve the quality of life, will be given preference in Priority Revitalization Communities.

- The recommended activities must provide maximum public benefits relative to cost.
 - The recommendation should define the outcomes the activity will produce and how those outcomes will be measured.
 - The recommended activity must not duplicate services available from the County or services being provided by another organization serving the same service area/population as the proposed activity.
 - All activities should leverage other funding sources to the greatest extent possible, demonstrating cost sharing opportunities and in-kind contributions.
-

OVERVIEW OF FEDERAL GUIDELINES

CDBG PROGRAM

In order to qualify for federal CDBG funds, public service activities must meet the *Low and Moderate Income Benefit* National Objective, as described below.

Low and Moderate Income (LMI) Benefit – In order to qualify as meeting this objective an activity must benefit Low and Moderate Income persons (LMI persons). This is accomplished by serving persons whose households earn 80 percent of area median income (AMI) and below (see chart below as an example, but please note that these income limits will be updated in 2017), or by serving persons presumed to be Low and Moderate Income such as those with special needs, persons with disabilities, homeless persons and the elderly. Additionally, in order to meet the criteria of LMI benefit, a project must serve a minimum of 51 percent low and moderate income persons OR the project must be located in an area predominantly inhabited by LMI residents. However, activities which serve more than the required LMI persons are reviewed more favorably since they are serving more persons with limited incomes than what is required by the federal regulations.

	Family Size 1	Family Size 2	Family Size 3	Family Size 4	Family Size 5	Family Size 6	Family Size 7	Family Size 8
80 % of AMI	\$46,000	\$52,600	\$59,150	\$65,700	\$71,000	\$76,250	\$81,500	\$86,750

effective May 1, 2016

Slums and Blight – For an activity to meet this objective, it must be designed to prevent or eliminate slum and blight conditions. If you are proposing an activity which you believe meets this objective, please contact ACDS so we may provide technical assistance to determine if the activity meets the federal definition of slums and blight.

Eligible Capital Activities

In addition to meeting a national objective, the proposed project must be an eligible CDBG activity. These activities include, but are not limited to:
