ACTIVITY SELECTION GUIDELINES

- The recommended activity must be an eligible activity based on Federal Guidelines.
- Priority will be given to projects and programs which address the **County's vision statement**.

The main vision guiding the Consolidated Plan FY 2016- FY 2020 is to implement strategies that create a strong and vibrant community, both socially and economically, and create and maintain a diverse community of workers and a broad range of housing options for all income levels. Given the severe housing cost burden and risk of homelessness experienced by those at the lowest end of the economic spectrum, the County's limited federal resources should be prioritized for the stabilization and expansion of affordable housing. An expanded supply of work force housing will enable health aids, hospitality and retail workers, teacher aides, daycare workers, and other low income workers from the public, private and nonprofit sectors to live and be productive citizens of Anne Arundel County.

New affordable developments located in Opportunity Areas will be given priority, while efforts to stabilize and preserve affordable housing stock, and services to improve the quality of life, will be given preference in Priority Revitalization Communities.

Note: these priorities may change as we move through the Consolidated Plan process. Applicants will be notified as goals and strategies are set.

- The recommended activities must provide maximum public benefits relative to cost.
- The recommendation should define the outcomes the activity will produce and how those outcomes will be measured.
- The recommended activity must not duplicate services available from the County or services being provided by another organization serving the same service area/population as the proposed activity.
- All activities should leverage other funding sources to the greatest extent possible, demonstrating cost sharing opportunities and in-kind contributions.
- Recommended activities should constitute a new or substantial increase in services. Activities requiring multi-year funding will be encouraged to seek other sources of funding after three years.
- Priority will be given to activities, which serve residents of Anne Arundel County. If sufficient funds are available, activities located in the City of Annapolis will be considered, especially to the extent that they have a regional benefit.

OVERVIEW OF FEDERAL GUIDELINES

CDBG PROGRAM

In order to qualify for federal CDBG funds, public service activities must meet the *Low and Moderate Income Benefit* National Objective, as described below.

Low and Moderate Income (LMI) Benefit – In order to qualify as meeting this objective an activity must benefit Low and Moderate Income persons (LMI persons). This is accomplished by serving persons whose households earn 80 percent of area median income (AMI) and below (see chart below as an example, but please note these income limits will be updated in the next year), or by serving persons presumed to be Low and Moderate Income such as those with special needs, persons with disabilities, homeless persons and the elderly. Additionally, in order to meet the criteria of LMI benefit, a project must serve a minimum of 51 percent low and moderate income persons OR the project must be located in an area predominantly inhabited by LMI residents. However, activities which serve more than the required LMI persons are reviewed more favorably since they are serving more persons with limited incomes than what is required by the federal regulations.

	Family Size 1	Family Size 2	Family Size 3	Family Size 4	Family Size 5	Family Size 6	Family Size 7	Family Size 8
80 % AMI	52,850	60,400	67,950	75,500	81,550	87,600	93,650	99,700

Effective June 28, 2019
