(limit 2,500 characters)

A. The MD-503 CoC actively seeks and considers opinions on the CoC's overall performance, strategies, and priority-setting process. Firstly, the MD-503 encourages active participation in the CoC Board and general membership meetings, where open discussions are held on key issues including monthly reports showcasing outcomes and performance including shelter entry/exit data, number of successful PH placements, and returns. Secondly, the MD-503 promotes the CoC's involvement in County-wide planning initiatives, such as developing homeless goals and strategies for the County's five-year Consolidated Plan. This comprehensive process involves soliciting public feedback at various stages through public hearings and soliciting feedback on plans available on www.acdsinc.org. Thirdly, the MD-503 establishes comprehensive CoC-wide strategic planning groups that include various agencies targeting different populations, including homeless children from the school system, youth, veterans, family homelessness, prevention efforts, and individuals experiencing street and chronic homelessness.

B. Participants include County school personnel responsible for the McKinney-Vento Homeless Assistance Act, Community Legal Services, Partnership for Children, Youth, and Family, Anne Arundel County Health Department, County Mental Health Agencies, County police, and the County Crisis Response team, providers of shelter, transitional and PSH housing, as well as the coalition's lead agency for Coordinated Entry and HMIS data collection.

(limit 2,500 characters)

The MD-503 CoC has a comprehensive process for soliciting proposals from a wide range of organizations, including those that haven't received CoC Program funding in the past. The CoC application process was emailed to over 200 stakeholders and posted on the www.acdsinc.org website in June 19, 2026. The email provided key information about the FY26 CoC Competition, announced an application training session (which is also recorded and posted on the website), and outlined the application process and deadlines. Applications are submitted through a web-based application program, Neighborly, which was open for anyone to apply. All proposals submitted by the deadline are accepted and reviewed for eligibility.

In the FY26 local competition, the CoC received 11 applications. Of those, three agencies submitted applications that had never received CoC Program funding before. The CoC ranked and accepted two of the three new applications and will submit them as part of the FY2026 CoC application. Additionally, the CoC will submit applications for funding from three faith-based organizations: Catholic Charities, Arundel House of Hope, and Blessed In Tech, Inc., which is a new applicant for FY26.

1B-5	Plan for Comprehensive Strategies for Reducing Homelessness.
------	--

Describe how your CoC will incorporate comprehensive strategies for reducing homelessness, including interventions in 42 U.S.C. 11386b(d) and other targeted projects for specific subpopulations, by providing a plan to address a gap in the CoC's current homelessness system.

(limit 2,500 characters)

MD-503 is developing a comprehensive plan to reduce homelessness in the County. Given the complexity of the homeless population, the County has divided it into strategic areas based on specific groups, such as youth, families, veterans, and chronically homeless individuals.

A consensus, supported by a PIT/HIC gap analysis, is that the community needs additional emergency shelter beds. The 2026 PIT counted a total of 223 sheltered and 34 unsheltered persons, including children. The County only has a total of 126 year-round shelter beds and 16 transitional beds. In January 2026, the County opened additional freezing weather beds and the seasonal winter rotating “faith-based” shelter, increasing capacity to shelter individuals. However, these cold weather or seasonal beds are only available during the coldest days of the year.

The lack of shelter or interim assistance affects most populations experiencing homelessness, including families, chronically homeless individuals, youth, and veterans. The County has a continuous waitlist for shelter, averaging from 10 to up to 100 on a given night. Families and working individuals are living in cars while awaiting for space in shelter or housing programs to become available.

One strategy to address this issue is to create service-intensive interim housing and transitional beds, particularly for families with children. By increasing the number of transitional beds, the County aims to expand its shelter systems, reduce shelter stays, and address the unmet need for shelter. Additionally, service-rich programming, including workforce and behavioral health care, will support families or individuals progress towards housing stability and self-sufficiency.

Quantifiable performance measures include developing 60 beds of service-rich transitional housing for families and individuals meeting HUD’s Category 1 definition of homelessness. These units should be completed by the end of December 2027. Potential funding sources include FY26 Continuum of Care funds and County Housing Trust Funds. Lead organizations include ACDS, Arundel House of Hope, Inc., and Catholic Charities.

1B-5a Confirmation of Plan Coverage.

Select ‘Yes’ or ‘No’ in the chart below to indicate whether your narrative in question 1B-5 addresses the following aspects of your plan to address a gap in the CoC’s current homelessness system.

1. Identifies the gap, using data or stakeholder feedback	Yes
2. The strategy to address the needs of all relevant subpopulations	Yes
3. Sets quantifiable performance measures	Yes
4. Identifies timelines for the completion of specific tasks	Yes
5. Identifies specific funding sources for planned activities	Yes
6. An individual or body responsible for overseeing implementation of specific strategies	Yes

(limit 2,500 characters)

The CoC collaborates seamlessly with emergency shelter providers, as all of them are active board members of the CoC Coalition. These shelter providers offer a wide range of services. For instance, Catholic Charities operates both an emergency shelter and currently funds a CoC-supported Rapid Rehousing (RRH) program. They are also applying to operate a transitional housing program in the FY26 application. Arundel House of Hope provides a day and resource center, operates the Winter Relief program, a rotating church shelter during the winter, and has CoC-funded PSH (Preventive Services), RRH, and Transitional housing programs.

All emergency shelters participate in the County's Coordinated Entry process. This process not only places individuals and families experiencing homelessness into shelter but also coordinates a weekly case conference. This conference involves staff from both ESG and State-funded shelters, as well as PSH (Permanent Supportive Housing), RRH (Rapid Rehousing), and Transitional housing programs. This process ensures a smooth transition for individuals from the shelters or the streets into appropriate housing programs.

Describe in the field below how your CoC's street outreach projects (including co-response) cooperate with first responders and law enforcement to increase positive interactions in order to increase housing and service engagement and promote use of CoC services.

(limit 2,500 characters)

The MD-503 collaborates with first responders and law enforcement on a regular basis.

Anne Arundel Department of Social Services Street Outreach Team cooperates with first responders and law enforcement. Anne Arundel County's Mental Health Agency along with the County's Police has developed a Crisis Intervention Teams (CITs). These teams work with the DSS' Street Outreach Team to increase positive interactions. These teams CITs consist of a police officer trained in CIT and an independently licenses, behavioral health clinician. CITs teams are effective if an individual is a danger to self or other, such as has a weapon or other high risk, which would make it dangerous for the Street Outreach Team or Crisis Response Team to respond to a situation.

The City of Annapolis, the DSS Street Outreach Team meets with the city police on a monthly basis to discuss concerns, identify strategies for particular individuals, and coordinate responses to encampments within the City. BWI Airport has contracted with the Anne Arundel County Mental Health Agency Crisis Response Team which works hand and hand with airport security to address the needs of unhoused persons using the airport or airport parking garages as places to sleep. If the homeless outreach team is unable to resolve an issue, then the airport security steps in to resolve.

1C-8. Family or Support Network Reunification.

Describe how your CoC, or your recipients, assist with family or support-network reunification efforts for individuals experiencing homelessness or living in CoC Program-funded housing (e.g., case management, travel costs, arrangement of assistance in another geographic area).

(limit 2,500 characters)

Describe how your CoC cooperates and does not interfere with or impede local efforts to advance the objectives below, and assists first responders in providing services to homeless individuals.

(limit 2,500 characters)

The MD-503 CoC has an active policy around encampments that includes working relationships with the Anne Arundel County Police Department, as well as the Maryland Transportation Authority Police. The MD-503 CoC regularly engages residents of encampments and offers daily hygiene supplies and referrals to resources such as, but not limited to, substance abuse recovery and shelter access when possible. These engagements help the CoC's outreach team develop and deepen relationships with people experiencing homelessness. Typically, the CoC outreach team will engage with encampment residents for 30 days prior to requiring residents to move. During those 30 days, the CoC's outreach team works to connect people with other options for housing - either shelter, treatment beds, or housing when available. The MD-503 CoC believes this "30 day engagement" policy is a beneficial one that supports efforts to move people away from encampments, while not allowing encampment residents to remain in their same location for long periods of time.

1C-10a. Protecting Public Safety—Plan to Quickly Clear Tents and Encampments.

Identify local laws, policies, or other practices that help or hinder the CoC's ability to quickly clear tents and encampments on public property and connect individuals who are camping in public with appropriate services and provide a plan explaining how the CoC will leverage beneficial policies while overcoming the harmful effects of restrictive ones. If you cannot provide any mitigating steps, please explain why.

(limit 2,500 characters)

The MD-503 CoC has an active policy around encampments that includes working relationships with the Anne Arundel County Police Department, as well as the Maryland Transportation Authority Police. The MD-503 CoC regularly engages residents of encampments and offers daily hygiene supplies and referrals to resources such as, but not limited to, substance abuse recovery and shelter access when possible. These engagements help the CoC's outreach team develop and deepen relationships with people experiencing homelessness. Typically, the CoC outreach team will engage with encampment residents for 30 days prior to requiring residents to move. During those 30 days, the CoC's outreach team works to connect people with other options for housing - either shelter, treatment beds, or housing when available. The MD-503 CoC believes this "30 day engagement" policy is a beneficial one that supports efforts to move people away from encampments, while not allowing encampment residents to remain in their same location for long periods of time.

The State of Maryland passed HB576/SB 453 Mental Health - Assisted Outpatient Treatment Program which required all jurisdiction's to implement Assisted Outpatient Treatment Programs. according to the Treatment Advocacy Center (TAC), Assisted Outpatient Treatment (AOT) is the practice of providing community-based mental health treatment under civil court commitment, as a means of: (1) motivating an adult with mental illness who struggles with voluntary treatment adherence to engage fully with their treatment plan; and (2) focusing the attention of treatment providers on the need to work diligently to keep the person engaged in effective treatment. This is a new program in Maryland's system that allows a court to order mental health treatment in the community for individuals that have a severe and persistent mental illness who have demonstrated difficulty engaging in treatment.

While targeting individuals with persistent mental illness, frequently people experiencing homelessness that have a severe mental illness may be co-occurring with addiction.

This new bill - Mental Health - Assisted Outpatient Treatment Program may be developed into a program that will assist the community in engaging individuals who may use illicit drugs in public spaces. Anne Arundel County has very specific laws that prohibit the use of illicit drugs in public spaces.

Additionally, Anne Arundel County Health Department has several outreach efforts to engage with individuals using illicit drugs including providing education and resources, access to same day treatment, and peer support services.

1C-10d. Protecting Public Safety—Current Status of Overdoses and Illicit Drug Use in Public Spaces.

Describe the current status of overdoses and illicit drug use in public spaces in the CoC's geographic area.

(limit 2,500 characters)

According to the most recent data from the Maryland Department of Health Department, there have been 149 opioid-related overdoses and deaths year to date, reflecting a 28.4% decrease from the 208 overdoses YTD in 2025. Additionally, there have been 28 opioid related deaths year to date, reflecting a 34% decrease from the 44 overdose deaths YTD 2025. Overall, it appears that the interventions that Anne Arundel County has put in place are saving lives. The Health Department has a wide array of strategies to reduce the risk of death and overdoses.

1C-10e. Protecting Public Safety—Standards to Address Danger to Self or Others.

Identify local laws, policies, or other practices that help or hinder the CoC's ability to utilize standards that address homeless individuals who are a danger to themselves or others (e.g., involuntary commitment) and provide a plan explaining how the CoC will leverage beneficial policies while overcoming the harmful effects of restrictive ones. If you cannot provide any mitigating steps, please explain why.

(limit 2,500 characters)

Anne Arundel County has an established behavioral-health crisis system that enables the CoC to respond when an individual experiencing homelessness may present a danger to themselves or others. CoC members are trained to recognize behavioral-health emergencies and to promptly contact the appropriate crisis-response professionals, law enforcement, or emergency medical services when circumstances warrant. The CoC coordinates with behavioral-health crisis services, law enforcement, and other appropriate emergency responders when circumstances require an immediate safety intervention. Anne Arundel County's Crisis Response Team (CRT) is often the first responder in these situations. The CRT combines law enforcement personnel with involvement of the County's Health and Mental Health Departments to de-escalate potentially dangerous situations involving homeless individuals through the least restrictive or traumatic way possible, while at the same time ensuring the safety of the individual involved and the public.

When dealing with a crisis situation, the CoC prioritizes voluntary, person-centered, and community-based interventions whenever those interventions can adequately address the individual's needs and maintain safety for the individual and others. When a situation meets the applicable legal standard for emergency medical or mental health evaluation or involuntary intervention such as incarceration or commitment, CoC providers cooperate with the appropriate professionals and public-safety agencies.

Maryland law provides specific situations related to when an individual may be involuntarily committed or forced to receive certain treatments. This may occur only when certain circumstances apply and very specific procedures must be followed in the courts. As of October 1, 2026, Maryland law changed to broaden the standards for involuntary commitment and guardianship. See Health-General §10-617, §10-622, and the new § 10-601(c), which takes effect October 1, 2026.)

When an individual without family or others who can step in to assist the individual is adjudicated by a court to be incapable of caring for themselves, the Anne Arundel County Department of Social Services and Department of Aging and Disabilities act as court appointed guardians of the person to ensure appropriate decisions regarding treatment and living arrangements are made in the best interests of the individual. Decisions made by guardians are supervised by the courts.

1C-10f. Protecting Public Safety—Share Information in Accordance with SORNA.

Identify local laws, policies, or other practices that help or hinder the CoC's ability to comprehensively share information, including location information, in accordance with the Sex Offender Registry and Notification Act (SORNA) and provide a plan explaining how the CoC will leverage beneficial policies while overcoming the harmful effects of restrictive ones. If you cannot provide any mitigating steps, please explain why.

(limit 2,500 characters)

The DOJ has determined Maryland is one of 18 states to have “substantially implemented” all SORNA requirements and has fully implemented a comprehensive public state sex offender registry for both adults and juveniles through the Department of Public Safety and Correctional Services (DPSCS). Md. Crim. Proc. §11-705(d) specifically requires homeless sex offender registrants to register in person every week with local law enforcement in the county where they habitually live.

Anne Arundel County has policies and practices that support comprehensive information sharing under the Sex Offender Registration and Notification Act (SORNA), including information concerning the location of registered sex offenders. The Anne Arundel County Police Department’s Written Directive 1002, Sex Offenders—Notification & Registration, provides that individuals subject to registration in Anne Arundel County, including those residing within the City of Annapolis and Fort Meade, register with the County Police Department. The Department’s Sex Offender Registry Squad is responsible for completing registrations, updating information in the Maryland Online Sex Offender Registry, maintaining registration records, monitoring compliance, coordinating address verification and required notifications, and investigating registration violations. These local practices operate within Maryland’s statewide sex-offender registration system, which provides for public registry information and the exchange of registration information with federal agencies and other jurisdictions.

Placement on the Sex Offender Registry presents a huge barrier to access to housing that is difficult to overcome. The information is generally available to the public and can lawfully be used by prospective landlords in determining acceptance for housing applications. Moreover, individuals on the registry are barred from acceptance for housing in certain geographical locations and in publicly subsidized properties. When registry information is relevant to housing placement or safety planning, participating CoC agencies limit access to that information to personnel with a legitimate programmatic need to know and use the information only for lawful housing, service, safety, or referral purposes. The CoC does not make confidential client records or criminal-history information broadly available to participating providers, landlords, or other parties, but the information is public and cannot be shielded.

1C-11. Outreach Strategy.

Describe your CoC’s strategy to outreach to all individuals and families experiencing homelessness across your geographic area.

(limit 2,500 characters)

MD-503 CoC has a comprehensive street outreach effort coordinated and operated by the Anne Arundel County Department of Social Services (DSS).

The Street Outreach Team consists of five full time outreach workers and one full-time housing case manager. The team focuses on engaging anyone experiencing unsheltered homelessness to access shelter, services, and housing. While the outreach team canvases the whole County, there is a focus on known hot spots, such as Glen Burnie, Annapolis, Pasadena, Brooklyn, and Laurel areas. Outreach staff use a person-centered approach to build trust and work to engage those least likely to ask for assistance. Outreach staff identify individuals through regular canvassing, tips to the CE number, collaboration with police, first responders, and the crisis response line who may be reluctant to engage.

Services are tailored to each situation, including meeting individuals where they are both literally and figuratively. Where possible, services are directly brought to the encampments or other known spots of congregation. For example, one member of the team is trained to complete applications for entitlement benefits in the field; staff from the County's Health Department come to site to give flu shots and COVID vaccines. Outreach staff ensure all participant's are assessed to be placed on the CoC's, shelter, Access Housing (PSH) and Rapid Re-Housing by-names lists and works with everyone to connect with shelter placements and obtain permanent housing. Outreach staff use tools, such as translation apps, to ensure individuals with limited english proficiency are linked to services. All County agencies have adopted Language Action Plans that provide additional access to resources such as translators in a wide variety of languages.

The County's Street Outreach team includes 5 FTE who work regular hours, Monday through Friday. Each day, staff canvass their assigned areas and meet with clients who are experiencing street homelessness.

Known encampments are visited a minimum of once a month, though based on numbers/need the outreach teams make every effort to visit the encampments more often to build trusting relationships and link persons experiencing homelessness to services.

Outside of outreach staff hours, the Crisis Response Team is available 24/7 for emergency situations.

Each family shelter program actively works with Pupil Personnel Workers (PPWs) and school personnel to implement these policies and enroll students in all eligible services. The County's PPWs maintain a comprehensive list of all students eligible for services including those children doubled up and at-risk of homelessness. PPWs work closely with the family emergency shelters to ensure families are linked to services. For example, at Sarah's House Shelter, case workers and childcare staff communicate with PPWs about transportation, organize school orientation to educate families about rights and resources, arrange and host parent/teacher conference at the shelter; and together (PPW, teachers, and Program staff) arrange tutoring and other academic supports for families.

The County's school system Homeless Liaison actively participates in the CoC by attending Homeless Coalition meetings as a Board member, and actively participates in the youth, coordinated entry, and application review subcommittee meetings. The Homeless Liaison educates CoC Coalition members and other stakeholders about eligibility for education services and McKinney- Vento Programs that benefit children experiencing homelessness.

If the person will need ongoing housing support, the Independent Living Coordinator contacts the Homeless Coordinator at the Department to determine what types of placements may be available. Emergency shelter is considered if a permanent housing placement does not exist. The Department has 10 Adult Independence Program (AIP) vouchers through the Housing Commission of Anne Arundel County (HCAAC). 1.	any changes your CoC made to your unsheltered PIT count implementation, including methodology or data quality changes between 2025 and 2026, if applicable, and
2.	how the changes affected your CoC's PIT count results.

(limit 2,500 characters)

There was no methodology or data quality changes in the 2026 CoC PIT Count. However, during the last 10 days of January, the County experienced severe cold and multiple snow / ice storms which may have impacted the PIT Count.

2A-4. Reduce Encampments—Actions to Reduce Encampments.

Describe in the field below the actions your CoC took to reduce the number of encampments or the number of people residing in encampments during your evaluation period.

(limit 2,500 characters)

It is the policy in Anne Arundel County, regarding the clearing of encampments on County or City property that a representative from Anne Arundel County or the City of Annapolis, along with a Street Outreach Worker from Anne Arundel County Department of Social Services, meets with the individuals in the encampment and provide a written 30 day notice to remove all possessions and not return. The Street Outreach Worker provides resources and services during this 30 day period. The Street Outreach Worker utilizes resources through the Department of Heath's Substance Use programs and the Local Crisis Response System to connect individuals to inpatient substance use treatment or inpatient mental health services when necessary. If the individuals are not able to access those resources or do not need that level of care, they will be directed towards emergency shelter or other temporary housing. The Street Outreach Worker will provide assistance to apply for public benefits to help increase income and help develop a plan to leave the encampment.

Once the 30 days have passed, if the person remains on the County or City property they will be served with no trespassing violations and their items will be discarded by Department of Public Works. The County and City uses criminalization as a last resort in disbanding encampments.

Encampments that are on public property is at the discretion of the property owner. The Street Outreach Team will connect with property owners so they are aware people have built an encampment on their property and work with them on developing a strategy to quickly disband the encampment utilizing a timeline that works with the property owner and the people utilizing the encampment.

2A-5. Reducing the Number of First Time Homeless—CoC's Plan.

Describe your CoC's plan to decrease the number of individuals and families becoming homeless for the first time.

(limit 2,500 characters)

MD-503 has put together a comprehensive package of strategies to continue to reduce first time homelessness. Current strategies include:

- (1) implementation of a robust eviction prevention system using State, CDBG, and local community funds to provide emergency rental assistance, supportive services, landlord mediation, and utility shutoff prevention. Availability of these grants and services are affirmatively marketed to at-risk communities;
- (2) coordinates with the Anne Arundel County's Sheriffs' office to identify individuals scheduled for eviction. Through this partnership, MD-503 is able to undertake expedited and proactive outreach to families at imminent risk of eviction, assess the situation, develop a housing maintenance plan, and rapidly process payments to prevent the eviction;
- (3) fund and coordinate with legal services partners to obtain delays on evictions to allow for an orderly move out or to allow time to process applications for rental assistance to resolve the rental debt and cancel the eviction;
- (4) offer relocation and shelter diversion services utilizing funds made available for the County's Affordable Housing Trust Program to provide housing assistance;
- (5) fund and offer programs that address the housing needs of at-risk families identified through the school system. The United Way and the Anne Arundel County Public School System have provided resources to pay for case management, housing locator services, and rental assistance to families unstably or at-risk of homelessness.

Through these strategies MD-503 was able to prevent homelessness for over 600 households this year.

2A-6. Reducing Length of Time Homeless—CoC's Plan.

Describe your CoC's plan to reduce the length of time individuals and families remain homeless.

(limit 2,500 characters)

MD-503 saw a slight reduction in the length of time people remain homeless between 2023 and 2024. Providers have faced a number of challenges to rapidly rehouse those entering the shelter, as the cost of rent has increased significantly in the past year.

Increased outreach services will allow for quicker identification of individuals experiencing homelessness, allowing for quicker assessment and triage to identify the best interventions (e.g. shelter, or right into RRH/Transitional programs, PSH). MD-503 is also working on increasing capacity in County funded and LIHTC housing as well as through successful exits by leveraging the CoC Move-On opportunities, developing new housing targeted to persons experiencing homelessness, and securing new vouchers for those with severe, persistent disabilities. In FY25, the Housing Commission of Anne Arundel County provided 7 vouchers to ensure that larger families whose incomes cannot increase enough to maintain housing were able remain stably housed. MD-503 funded additional rapid rehousing units with HOME and County Affordable Housing Trust Fund resources. Over \$1,200,000 has been allocated to support these efforts. While, adding transitional housing may not necessarily decrease the length of time homeless, it will improve the ability of individuals to improve income and self-sufficiency.

County funds are available to providers to onboard additional housing location specialists to outreach with landlords, building those relationships, and maintaining continually updated lists of available units. These specialists are also conducting comprehensive assessments of housing needs, identifying any barriers, and working to mitigate those barriers. The CoC also holds weekly case conferencing to collectively problem solve when a household is struggling to secure housing. Case managers have also been focusing on ensuring all households are signed up for all eligible waitlists for LIHTC, vouchers or public housing, and other non-CoC affordable housing.

	2A-7. Successful Permanent Housing Placement—Exits to Unsubsidized Housing.	
	Based on HMIS data, what percent of program participants exited from TH/RRH/PSH collectively to unsubsidized housing?	72.10%

Describe how you calculated the data for this response.

(limit 2,500 characters)

The above mentioned calculation was determined using HMIS data for Federal Fiscal Year 2025 (October 1, 2024 - September 30, 2025). During that time, there were 233 exits total from the MD-503 system. Of those 233 exits, 19 were permanent placements with family, 6 were permanent placements with friends, and 143 were placements into rentals without a subsidy. This totals 168 placements out of 233 exits, or 72.1%.

1.	steps your CoC will take over the next 12 months to increase the bed coverage rate to at least 85 percent for that project type, and

4A. Attachments Screen For All Application Questions

HUD publishes resources on the HUD.gov website at CoC Program Competition to assist you in completing the CoC Application. Resources include:

- Notice of Funding Opportunity (NOFO) Continuum of Care Competition and Noncompetitive Award of Youth Homeless Demonstration Program Renewal and Replacement Grants; and
- Frequently Asked Questions

We have provided the following guidance to help you successfully upload attachments and get maximum points:

1.	You must include a Document Description for each attachment you upload; if you do not, the Submission Summary screen will display a red X indicating the submission is incomplete.		
2.	You must upload an attachment for each document listed where 'Required?' is 'Yes'.		
3.	We prefer that you use PDF files, though other file types are supported—please only use zip files if necessary. Converting electronic files to PDF, rather than printing documents and scanning them, often produces higher quality images. Many systems allow you to create PDF files as a Print option. If you are unfamiliar with this process, you should consult your IT Support or search for information on Google or YouTube.		
4.	Attachments must match the questions they are associated with.		
5.	Only upload documents responsive to the questions posed—including other material slows down the review process, which ultimately slows down the funding process.		
6.	If you cannot read the attachment, it is likely we cannot read it either.		
	. We must be able to read the date and time on attachments requiring system-generated dates and times, (e.g., a screenshot displaying the time and date of the public posting using your desktop calendar; screenshot of a webpage that indicates date and time).		
	. We must be able to read everything you want us to consider in any attachment.		
7.	After you upload each attachment, use the Download feature to access and check the attachment to ensure it matches the required Document Type and to ensure it contains all pages you intend to include.		
8.	Only use the 'Other' attachment option to meet an attachment requirement that is not otherwise listed in these detailed instructions.

Question 1C-10

Attachment 4

Evidence of Coordination and Non-Interference with Local Efforts to Advance Public Safety

The MD-503 CoC has an active policy around encampments that includes working relationships with the Anne Arundel County Police Department, as well as the Maryland Transportation Authority Police. The MD-503 CoC regularly engages residents of encampments and offers daily hygiene supplies and referrals to resources such as, but not limited to, substance abuse recovery and shelter access when possible. These engagements help the CoC's outreach team develop and deepen relationships with people experiencing homelessness. Typically, the CoC outreach team will engage with encampment residents for 30 days prior to requiring residents to move. During those 30 days, the CoC's outreach team works to connect people with other options for housing - either shelter, treatment beds, or housing when available. The MD-503 CoC believes this "30 day engagement" policy is a beneficial one that supports efforts to move people away from encampments, while not allowing encampment residents to remain in their same location for long periods of time.

Under Anne Arundel County Code § 12-7-107, a property may constitute a "public nuisance" when, on five or more separate occasions within a 30-day period, specified crimes occur on the property and arrests are made. The covered offenses include illegally administering or distributing a controlled dangerous substance and certain illegal storage or concealment of controlled dangerous substances or paraphernalia. The provision authorizes County enforcement, including abatement and injunctive proceedings, and requires the Police Department to communicate with the property owner and seek cooperation before court proceedings.

Maryland law provides specific laws related to when an individual may be involuntarily committed or forced to receive certain treatments. This may occur only when certain circumstances apply and very specific procedures must be followed in the courts. As of October 1, 2026, Maryland law changed to broaden the standards for involuntary commitment and guardianship. See Health-General §10-617, §10-622, and the new § 10-601(c), which takes effect October 1, 2026.)

Anne Arundel County has policies and practices that support comprehensive information sharing under the Sex Offender Registration and Notification Act (SORNA), including information concerning the location of registered sex offenders. The Anne Arundel County Police Department's Written Directive 1002, Sex Offenders—Notification & Registration, provides that individuals subject to registration in Anne Arundel County, including those residing within the City of Annapolis and Fort Meade, register with the County Police Department. The Department's Sex Offender Registry Squad is responsible for completing registrations, updating information in the Maryland Online Sex Offender Registry, maintaining registration records, monitoring compliance, coordinating address verification and required notifications, and investigating registration violations. These local practices operate within Maryland's statewide sex-offender registration system, which provides for public registry information and the exchange of registration information with federal agencies and other jurisdictions.

3A-2a: Project List for Other Federal Statutes

The MD-503 CoC is not requesting the ability to allocate up to 10 percent of funding for the fiscal year awarded under the FY 2026 CoC Program Competition NOFO be approved to serve homeless households with children and youth defined as homeless under other federal statutes who are unstably housed (paragraph 3 of the definition of homeless found at 24 CFR 578.3).

MD-503 Policy or Statement to Advance Recovery
Attachment 10

The MD-503 Continuum of Care affirms its commitment to support any and all efforts to advance recovery from substance-use disorders in all projects and whenever possible.
